# NATIONAL AND REGIONAL AUTHORITIES REGISTERED

LIFE Platform meeting on Climate Strategic Integrated Projects

21-23 April 2026, Bilbao

This meeting is organised by  ELMEN

# LOCAL AND MULTI-LEVEL AUTHORITIES REGISTERED

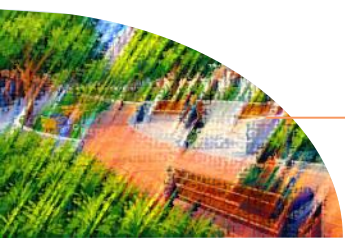

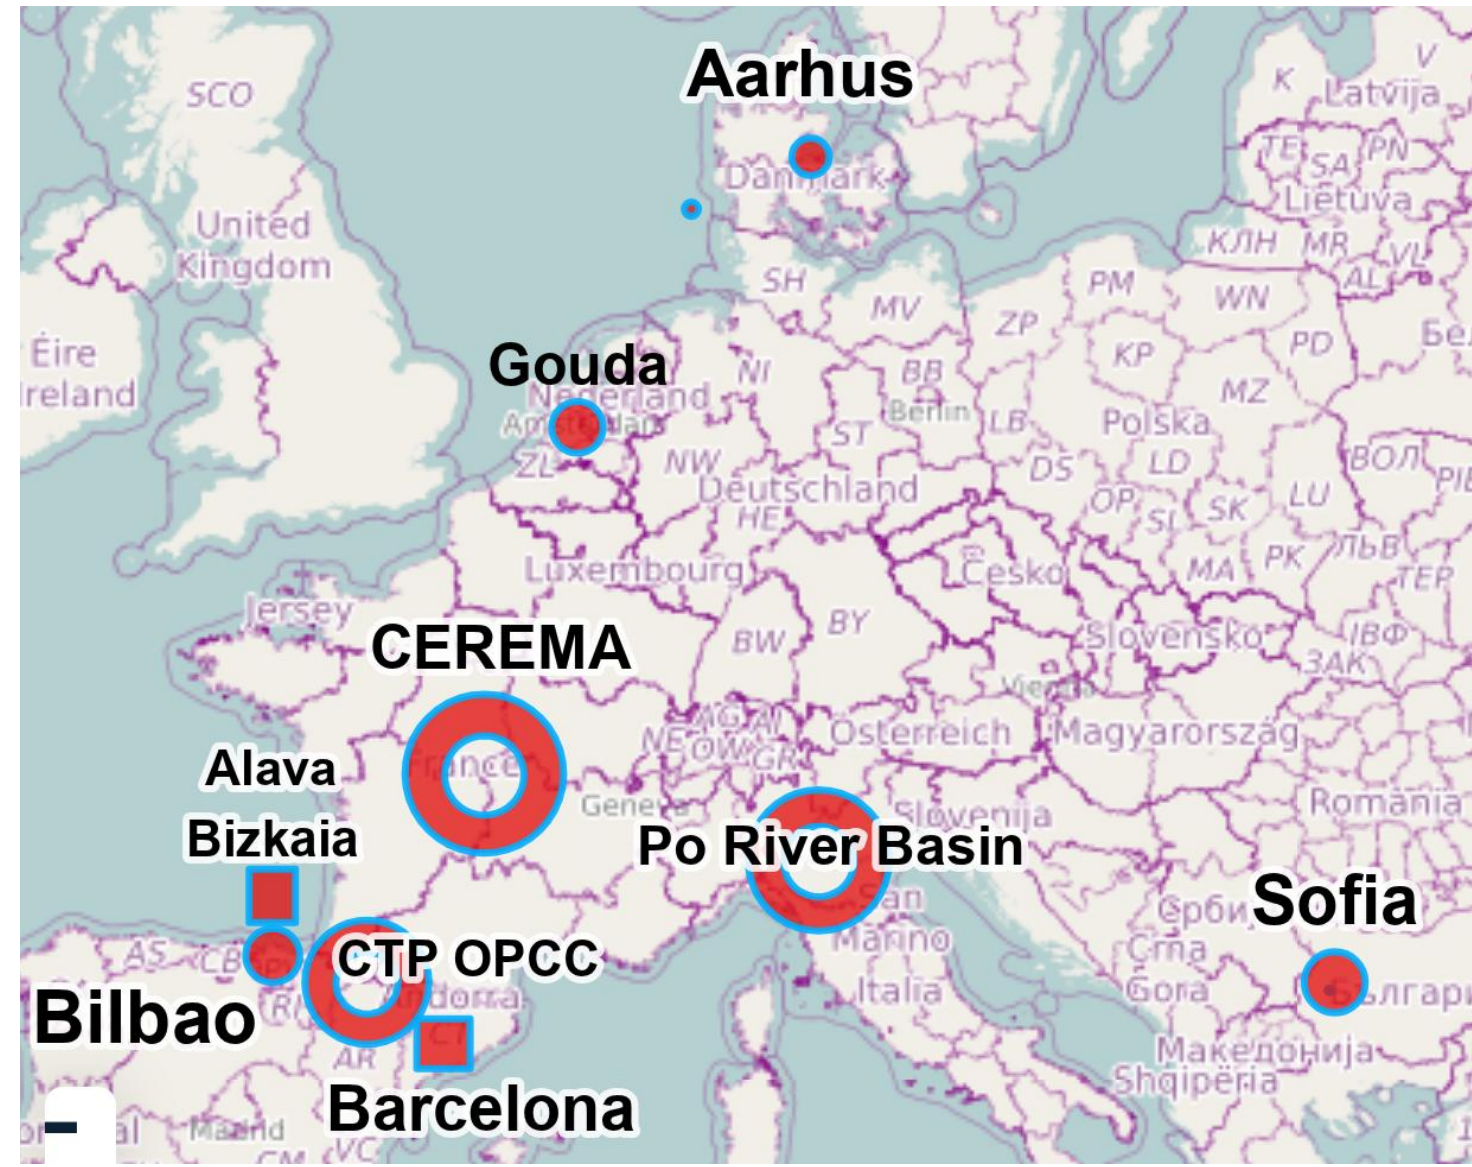

And also

5 Agencies

3 NCP

4 Research institutions

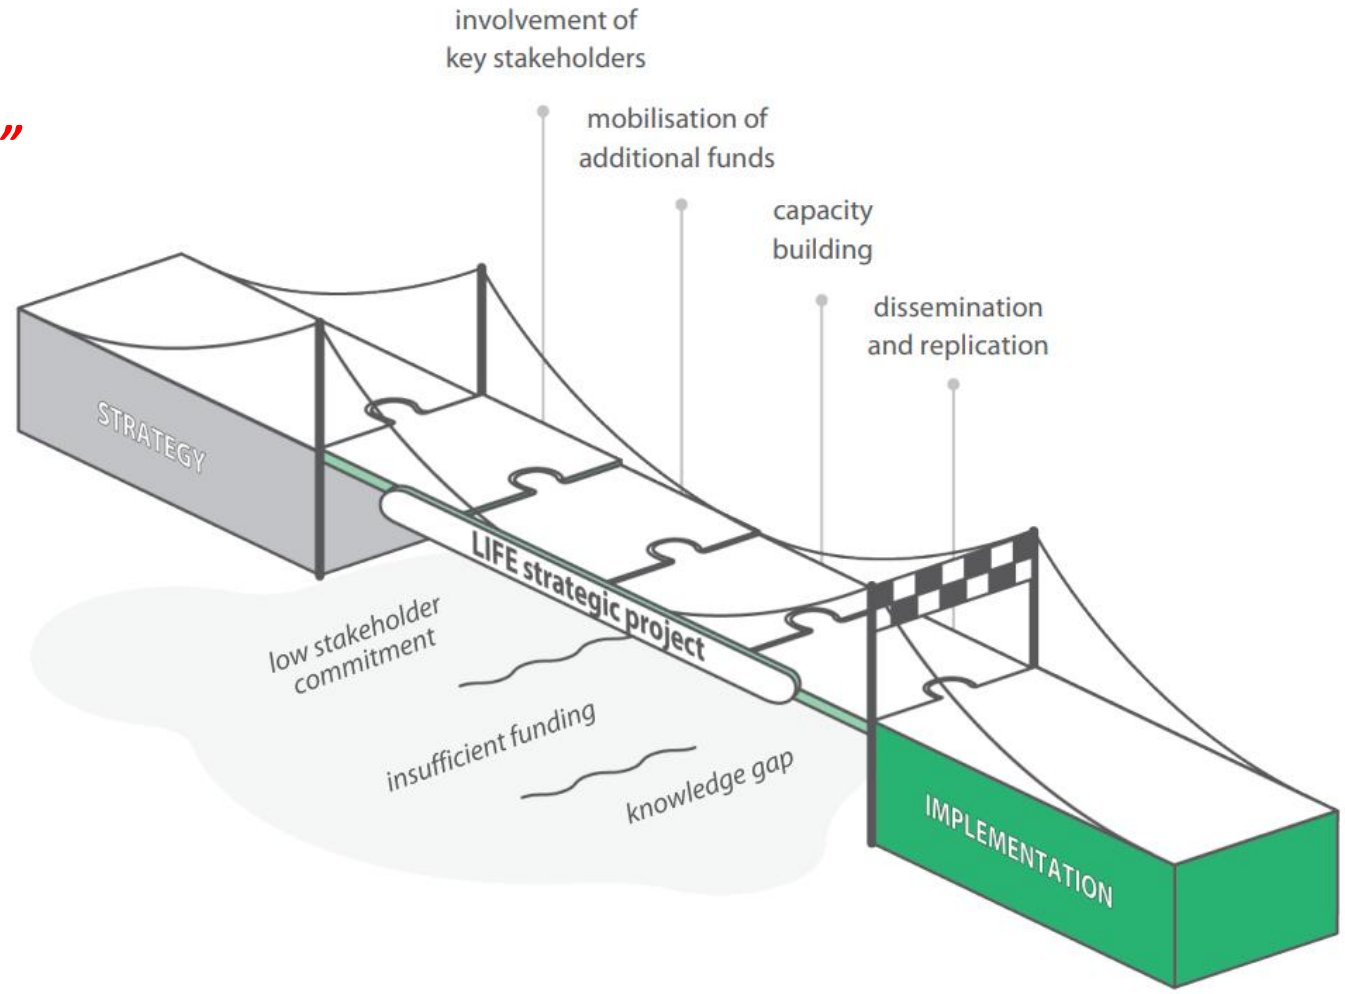

# ECA AUDIT REPORT

Special report 25/2025: LIFE strategic projects  
And its presentation at the European Parliament

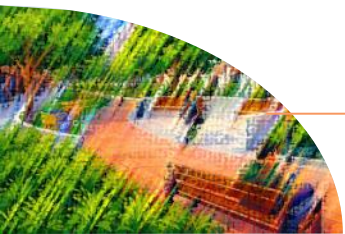

**“The LIFE Strategic projects work”**  
“encourage cooperation”  
“attract extra funding”  
“stabilizing factor”  
ECA Member Joëlle Elvinger

12 visits  
4 each country ES, FI, PL  
5 Clima interviews

Ians RHEIN

# ECA AUDIT FINDINGS

Special report 25/2025: LIFE strategic projects  
And its presentation at the European Parliament

- 1. Project selection:** do not necessarily prioritize MS environmental and climate needs. The Commission knows specific issue MS are facing that are not taken into account during the selection
- 2. Impact and outcomes:** shortcomings in monitoring and reporting. The (definition of) indicators do not capture key objectives of SIPs such as *mobilization of fundings* (including already approved funding), and *knowledge sharing via EU platforms*
- 3. Sustainability:** the entities drafting the After-LIFE plans are not always responsible to implement them

Hans RHEIN

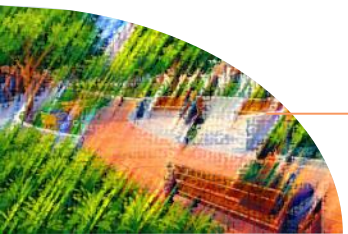

# ECA AUDIT RECOMMENDATION

Special report 25/2025: LIFE strategic projects  
And its presentation at the European Parliament

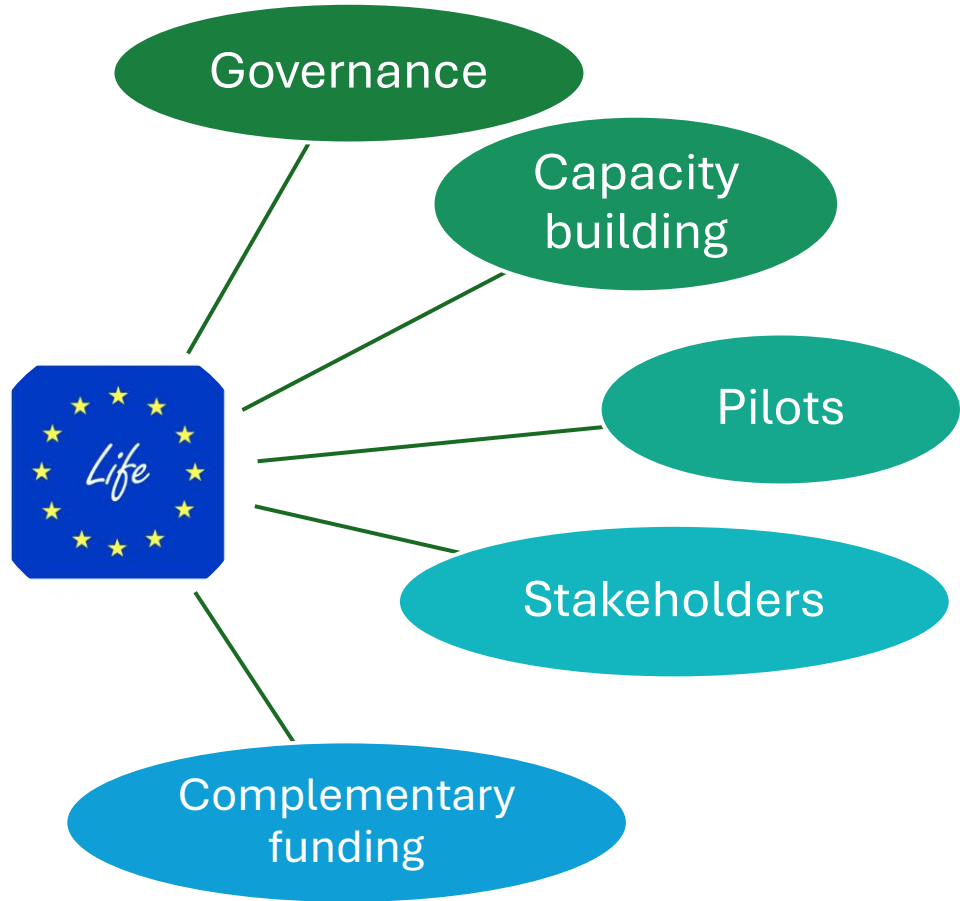

- 1. Better align LIFE strategic projects with known environmental and climate issues**
- 2. Clarify the concept of mobilizing additional funding and improve reporting in this regard**
- 3. Promote the use of EU-wide platforms for dissemination and Replication**
- 4. Enhance the sustainability of strategic project results – involvement of responsible authority in the After-LIFE plan**

Hans RHEIN
